

# *A Word to Our Students*

**Powerful message to students about drugs!**

**By Trinka Porrata**

**Drug Consultant (Retired Narcotics Detective)**

Trinka's latest Power Point product - 67 slides for high school/college students; notes provided for each slide. Lots of photos. Vary it by using "hide slide" feature. Customize for your locale. If you aren't talking to young people today about these drugs, maybe you aren't talking to them at all! Covers general drug issues, but focuses on latest club drugs, plus includes steroids, sexual assault (for both male & female) and even over-the-counter medications/supplements. It's the presentation she has been using; young audiences have been hungry for the dialogue. Trinka's PP presentations for the law enforcement & medical community on club drugs and how to investigate drug-facilitated sexual assault are in use nationwide. Now this presentation joins the list. (To order her other CDs, visit [www.trendydrugs.org](http://www.trendydrugs.org)).

**Your purchase of this CD [via this flyer](#) will help fund [Project GHB](#), a non-profit organization dedicated to providing accurate info about the drug GHB. Visit [www.projectghb.org](http://www.projectghb.org) for more info on GHB.**

*Do YOU recognize warning signs of abuse/possession of MDMA (Ecstasy or XTC or X) and GHB (Scoop or G or Liquid X) or ketamine (Special K or Vitamin K or Cat Tranquilizer) or LSD (Acid)? If you don't know what baby pacifiers/lollipops, vapor rub inhalers & glow sticks (related to XTC) or bubble solution containers, mouthwash & water bottles (GHB) & breathe mint bottles (LSD) can mean, YOU need to know. Bet most of your students do. But, do they know the true risks of ingesting these and other drugs? They need to know.*
